SUMMARY

Graduated from Business Creation major helped me develop a critical thinking framework as well as a problem-solving attitude. When I was in college, I was active in the organization as a staff and 6 months later I was actively involved in the core board as a treasury which made me learn more about human relationships and think creatively to answer and solve problems.

During the pandemic, I attended several online trainings, some of which were related to digital marketing skills. And I also had time to join the online selling community and opened an online shop in the field of skincare as a dropshipper. And there was a good opportunity to learn new skills in the digital marketing field. I finally started looking for a digital marketing course.

To deepen my knowledge and skills, I enrolled in an intense 13-week Full Stack Digital Marketing online course program offered by RevoU and monitored by industry experts. Participated in more than 300 hours of the interactive class made me able to hone my foundational skills as a T-shaped digital marketer.

PROFILE

Hello! I am a double degree graduate who geared up for HR & administration but instead found fiery passion in Digital Marketing, the ever growing, dynamic and exciting field. To build a rapport in Digital Marketing, I enrolled in a 12 week Digital Marketing program with abundance of practical experience and 200+ hours of lecture from Digital Marketing professionals in SEA. I gained the ability to use 6 popular Digital Marketing tools in the span of 2 months. I was able to be self-sufficient as well as to work in a team, and I learnt to adopt the digital marketers mindset of **continuous learning & improvement for growth!** Personality-wise, people have described me as a "bubbly person". I love trivia & fun facts, and enjoy historical themed stories in any media. I'm a bit of a geek who loves to play video games and bake pies. I'm currently 22 years old.

About

Irvandias Sanjaya (Dias) is an impact & career-development enthusiast. He's a Certified Coach Practitioner who's currently a full-time Associate Career Coach at PT Samala Serasi Unggul (Rumah Siap Kerja). As a side hustle, Dias takes part in RevoU, a digital marketing ed-tech-based startup, as a freelance career coach for more than a year; MyEduSolve as a contract-based Career Consultant underneath the Kampus Merdeka program; and Freelance Sensei Mentor Expert at IKIGAI Consulting. Before this, he worked in an impact consulting company named PT Gotong Royong Berdampak (Artemis Impact) as a partnership manager and co-established and CEO of disability-centered economic-based inclusion platform, DesignforDream.id, during college.

Aside from the professional working field, since 2016, Dias has been an active national public speaker/trainer. He reached >15.000 audiences, >400 speaking hours, and partnered with >75 reputable brands (e.g., Nutrifood, Skills Academy, AIESEC, Young On Top, Save The Children, Google Kormo, etc.) related to the topics of (career-based issues, public speaking, personal branding, scholarship, leadership, social entrepreneurship, and inclusivity). In addition, Dias published four books (Gen Resilience, Abroad Youth Vol.1, Aku Juga Anak Indonesia, Dari Senggigi Untuk Indonesia), and 23 Extra Miles with both individual & co-writing. Along with two fellows, Dias runs a football-based podcast named "Ganteng-Ganteng Manchester United (GGMU) Podcast" and career-related topics called "Carry your Career."

Dias won stellar international competitions, including the 1st Winner of Busan Global Smart Cities Challenge by Busan Metropolitan City in 2017, Best Project Presentation Winner by Youth Time Organization, Czech Republic, 2016, and Winner of House Young Advocacy Grants Competition by Habitat for Humanity, Philippines, 2016. In addition to that, he received acknowledgment as LinkedIn Power Profile in Social Impact 2018.

Dias graduated in Psychology from Universitas Gadjah Mada. He was awarded the 1st Most Outstanding student of UGM Faculty of Psychology 2017, Best Social Persona Student in Dies Natalis UGM 2017, and 2nd Most Outstanding Student of Liga Mahasiswa Berprestasi UGM in 2017. In addition, he was named Young Leader for Indonesia, a leadership program by McKinsey & Company, in 2017.

Dias is highly open to any opportunities such as projects and freelance.

ITB Library Application Redesign

ITB Library is an application intended for ITB students to facilitate the search for information about books owned by the ITB Library.

This app allows users to search for books and view some information about the book, such as book number, so it'll be easier for the user to check the physical book location at the library.

Another feature is users can see the information about currently borrowed and previously borrowed books.

Splash Screen

A splash screen is an important step to show the users that they're opening the right app, so I want the splash screen to be as clean as possible. The existing interface of the app has a blue background with the ITB logo in the middle of the screen and the app name below it. With 90% of the screen covered in blue including the logo and part of the text, there's not enough contrast for each element.

I decide to use a light grey color as the background and blue for the rest (logo and text) so it's clean and clear. I change the layout and put the app name on the bottom of the screen, give the text different weight, and add loading bar below the app name so it could give the users better understanding about how long does they need to wait.
