Does Teacher Immediacy Affect Students? A Systematic Review of the Association Between Teacher Verbal and Non-verbal Immediacy and Student Motivation

<https://pmc.ncbi.nlm.nih.gov/articles/PMC8267458/>

Abstract

In instructional-learning contexts, the relationship between teacher verbal and non-verbal immediacy and student motivation has gained increasing attention. However, no systematic research has been done to review the empirical studies conducted on the impact of teacher immediacy on students' motivation. Hence, the aim of the present study was to systematically review the available literature on different types of teacher immediacy and student motivation. Some common databases were searched and 30 eligible manuscripts were identified. With regard to the key features of the included studies, the review's findings were categorized into different sections, namely "the measures of teacher immediacy employed," "the measures of student motivation employed," "designs," and "educational contexts". The main findings of the studies were also discussed. The reviewed studies pointed to **positive associations between teacher immediacy and student motivation**. Finally, limitations of the included studies are discussed and some practical directions for further research are offered, accordingly.

Keywords: verbal immediacy, non-verbal immediacy, students, motivation, systematic review, teachers.

Have you ever noticed/felt these phenomenon?

This builds on Mehrabian's original "immediacy" construct (closeness-enhancing behaviors) and its adaptation to education.

Did you know?

However, teacher immediacy is also just a subset of a bigger competency called Adaptive Communication

Teacher Immediacy is defined as communication behaviors by instructors that decrease perceived distance between teacher and learners (e.g., warmth, availability, approach cues).

What Is Adaptive Communication?

Adaptive communication is the strategic approach of **tailoring your communication style** to suit the specific needs, context, and goals of your audience. It's about ensuring your message is not just heard, but truly understood and resonated with.

Clarity

Ensuring your message is understood without ambiguity.

Empathy

Connecting with your audience's perspective and feelings.

Effectiveness

Achieving the desired outcome from your communication.

Think of a neurobiologist doctor explaining a complex diagnosis. They don't use the same jargon with every patient; instead, they adapt their explanation to each individual's understanding, ensuring clarity and reassurance.

Why Adaptive Communication Matters

Communication Imperative

80% of leaders' time is spent communicating – making its effectiveness paramount for success.

- Poor communication is a leading cause of workplace project failures, costing companies millions.

Impactful Benefits

Builds **trust** and strengthens **relationships**.

- Reduces misunderstandings and conflicts.
- Boosts morale and employee engagement.

• **More Persuasive:** They can influence different personalities effectively.

• **More Respected:** They demonstrate emotional intelligence by adjusting their approach.

• **More Effective:** They ensure their message is understood and acted upon.

• **More Inclusive:** They create an environment where diverse voices feel heard and valued.

<https://elationcommunications.com/adaptive-communication-in-leadership/>

Real-World Adaptive Communication Examples

Adaptive communication isn't just theory; it's practiced every day in diverse settings.

Here are some scenarios where it shines:

Team Engagement

A manager shifts from a group setting to a **one-on-one discussion** to engage a soft-spoken team member, ensuring their ideas are **heard**.

Technical Translation

An **executive** **simplifies complex technical jargon** when presenting to non-expert staff, making the information accessible and engaging.

Inclusive Training

A trainer uses a mix of **visuals and detailed** written notes to accommodate both visual and analytical learners, maximizing comprehension.

The Transformative Impact of Adaptive Communication

Embracing adaptive communication yields far-reaching benefits, transforming not just how you connect, but your overall success and influence.

Stronger Relationships

Build deeper trust and understanding in all personal and professional interactions.

Enhanced Collaboration

Foster better team dynamics, leading to increased innovation and productivity.

Greater Influence

Positions leaders and professionals for greater impact and success in their fields.

It's the difference between merely talking and truly communicating, unlocking potential in every exchange.

Adaptive vs Traditional Communication

Traditional Communication

Traditional communication **uses static, one-size-fits-all messages**. It lacks flexibility and often fails to meet diverse audience needs, leading to misunderstandings and inefficiencies.

Adaptive Communication

Adaptive communication dynamically **adjusts messages based on real-time audience data**. It enhances clarity, engagement, and effectiveness, making it ideal for modern, fast-paced environments.

Interactive

Test

**During teacher meetings, one member rarely speaks.
Which response best reflects inclusive and adaptive practice?**

A. Continue group format so the member acclimates

B. Move to a brief 1:1 pre-meeting to surface ideas, then bring them into the group

C. Ask the member to submit ideas by email only

Interactive

Test

**During teacher meetings, one member rarely speaks.
Which response best reflects inclusive and adaptive practice?**

A. Continue group format so the member acclimates

B. Move to a brief 1:1 pre-meeting to surface ideas, then bring them into the group

C. Ask the member to submit ideas by email only

A quiet teacher may be overshadowed in full-group settings. A brief 1:1 pre-meeting lowers pressure, lets the leader listen, paraphrase, and clarify needs.

It's also true in Educational context

How teachers' student voice practices affect student engagement and achievement: exploring choice, receptivity, and responsiveness to student voice as moderators

Abstract

Strategies that promote student voice have long been championed as effective ways to enhance student engagement and learning; however, little quantitative research has studied the relationship between student voice practices (SVPs) and student outcomes at the classroom level. Drawing on survey data with 1,751 middle and high school students from one urban district, this study examined how the SVP of seeking students' input and feedback related to their academic engagement, agency, attendance, and grades. Findings revealed strong associations between this SVP and student engagement. Additionally, results showed that having just one teacher who uses the SVP is associated with significantly greater agency, better math grades, higher grade point averages, and lower absent rates than having no teachers who do so. In models testing interaction effects with choice, responsiveness, and receptivity to student voice, teachers' receptivity was strongly associated with all outcomes. Few interaction effects were found. This study contributes compelling evidence of the impact of classroom SVPs and teacher receptivity to student voice on desired student outcomes.

Keywords: Student voice, Student engagement, Student agency, Student achievement, Choice

<https://pmc.ncbi.nlm.nih.gov/articles/PMC11836230/>

How to get through hard times: Principals' listening buffers teachers' stress on turnover intention and promotes organizational citizenship behavior

Abstract

When principals listen to teachers' concerns, it creates a supportive environment that buffers the negative effects of perceived principal stress on teachers' turnover intentions. This study was conducted during the COVID-19 pandemic and included data from two distinct time points.

with our hypothesis.

However,

teachers evaluated the

principal listening is also

teachers were more likely to

turnover intentions.

<https://pmc.ncbi.nlm.nih.gov/articles/PMC11836230/>

How to get through hard times: Principals' listening buffers teachers' stress on turnover intention and promotes organizational citizenship behavior

Abstract

When principals listen to their teachers, they may foster an open and receptive work environment that helps teachers adapt during stressful times. Two studies examined the role of perceived principals' listening to teachers on workplace outcomes. Study 1 ($N = 218$) was conducted during the first nationwide lockdown in Israel. Study 2 ($N = 247$) was conducted during a later lockdown and controlled for social support to test the independent effects of the two distinct interpersonal experiences. Findings supported our hypothesis that principals' listening would relate to lower teacher turnover intention. In addition, in line with our hypothesis, teachers high on perceived stress generally reported higher turnover intention. However, the detrimental effect of perceived stress was not observed when teachers evaluated their principals as good listeners. Finally, we anticipated and found that principal listening is associated with organizational citizenship behavior. Specifically, teachers were more likely to help one another when feeling listened to by their principals.

Empathetic Listening vs Hear that intent to Reply

Give full attention

Listen with your **ears, eyes, and heart**

Try to **feel what they feel**

Don't judge, interrupt, or try to "fix" them right away

Interrupt or talk over someone

Focus on your **own story, advice, or opinion**

Can't remember what the other person said

You respond with "Yeah, but..." or "Me too!" too quickly

Empathetic listening is about **truly** understanding the other person's feelings, thoughts, and perspective.

The goal is to connect, not correct.

Listening with the intent to reply means you're hearing words but already preparing your response.

Your focus shifts to **what you'll say next.**

Active Listening

Appreciate by showing that you're listening: Uh-huh / OK / Yes, I see / Good / Really?

Ask questions to clarify and offer encouragement: What do you mean when you say...? / And then? / What happened next?

R

RECEIVE

A

APPRECIATE

S

SUMMARIZE

A

ASK

Receive the message, pay attention to the person speaking.

Summarize the main idea: It sounds like... / In other words, what you are saying is... / So in a nutshell... / Sounds like you are saying...

Active Listening

CASE STUDY: Let's imagine a team member, Rina, is explaining a challenge with a project deadline

Step	What it means	Example
Receive	Pay full attention to the speaker—tune in both verbally and non-verbally.	You look at Rina, pause your task, nod when she speaks, giving her your full attention.
Appreciate	Convey acknowledgment and empathy through small verbal (like “uh-huh”) or nonverbal cues (like nodding/slightly smiling).	You say, <i>“I hear you’re really stretched, I understand,”</i> and offer a sympathetic nod.
Summarize	Reflect back what you've heard using your own words (e.g., “So what I’m hearing is…”).	You respond, <i>“So you're finding the current timeline too tight, especially given the resource constraints in code reviews—do I have that right?”</i>
Ask	Pose follow-up or clarifying questions after summarizing (e.g., “Can you elaborate on…”).	You follow up with, <i>“Would it help if we shifted some tasks or extended the review period to alleviate the pressure?”</i>

Interactive

A hallway conflict flares between students. Which teacher move most aligns with Receive–Appreciate–Summarize–Ask?

A. Let each speak without interruption; reflect key points, then ask clarifying questions

B. Tell them the rule they broke and issue consequences

C. Separate them and handle it tomorrow

Interactive

A hallway conflict flares between students. Which teacher move most aligns with Receive–Appreciate–Summarize–Ask?

A. Let each speak without interruption; reflect key points, then ask clarifying questions

B. Tell them the rule they broke and issue consequences

C. Separate them and handle it tomorrow

It mirrors Receive–Appreciate–Summarize–Ask: listen first, reflect back, then clarify.

A black and white photograph of a woman with long dark hair, wearing a light-colored long-sleeved shirt, sitting in a library and reading a large open book to a group of children. The children are seen from behind, looking up at the book. The background is filled with bookshelves. This scene is displayed on a laptop screen, which is the central focus of the image. A blue rectangular box is overlaid on the screen, containing the text "Know the Stakeholders involved".

Know the Stakeholders involved

Deck Presentation | 2025

Stakeholders From Teachers' Perspective

(1)

Stakeholders	Interests	What Teacher Obtains	Teacher Lens
Students <i>(Primary stakeholders)</i>	fair grading, psychological safety, relevance, timely feedback, autonomy.	learning data, classroom climate, peer influence.	build trust (immediacy), differentiate instruction, co-create norms.
Families / Guardians <i>(co-educators at home)</i>	child wellbeing, progress clarity, behavior support, future pathways.	context (home routines, health), reinforcement at home, attendance support.	keep messages bite-sized and actionable; celebrate small wins before raising concerns.
Fellow Teachers & Support Staff <i>(execution partners)</i>	consistent policies, shared materials, predictable schedules.	curriculum alignment, cover/backup, interdisciplinary projects.	reduce “initiative overload”; standardize rubrics and deadlines across subjects.

Stakeholders From Teachers' Perspective

(2)

Stakeholders

School Leadership & Governance (principals, department heads, school board/yayasan, PTA/Komite Sekolah)

Student-facing Specialists (counselor/school psychologist, SPED/inklusi, librarian, lab/IT technicians, nurses/UKS)

Interests

School results, compliance, budgets, reputation, safety.

Appropriate referrals, early intervention, data privacy, inclusive access.

What Teacher Obtains

Policy, time allocation, resources, escalation pathways.

Targeted supports, accommodations, crisis response, literacy & research skills.

Teacher Lens

Needs into metrics leaders track (attendance, mastery, behavior incidents, parent satisfaction).

Loop them in early; document patterns (frequency, triggers) not just single incidents.

Stakeholders From Teachers' Perspective

(3)

Stakeholders

External Partners
(community leaders, alumni, NGOs, universities, employers, edtech providers)

Regulators / Funders
(Dinas/Kemendikbud Ristek, accreditation bodies, BOS fund admins)

Interests

Impact, visibility, pipeline building, program fit.

Curriculum compliance, assessment integrity, equitable access, fiscal accountability.

What Teacher Obtains

Real-world projects, mentors, internships, tools, enrichment.

Mandates, resources, professional development, quality assurance.

Teacher Lens

Align projects to standards; clarify roles, timelines, and safeguarding.

Map mandates to classroom routines; keep light evidence trails (lesson plans, assessment samples).

Influence vs. interest (1)

Stakeholders	High Interests	Medium Interest
High Influence	WHO leadership, department heads, families of high-needs students HOW keep weekly touchpoints and data snapshots.	WHO board/yayasan, district officers HOW speak in outcomes, risk, and compliance.
Medium Influence	WHO counselors, special education school, librarians HOW co-plan and co-document supports.	

Influence vs. interest (2)

Typical friction points & teacher-centric fixes

Friction Points	Description	Fixes
Policy–practice gap	new rules without classroom supports	request time, exemplars, and assessment alignment before rollout.
Communication overload	too many channels	agree on “tiering” (urgent = phone/WA; important = LMS note; FYI = weekly bulletin).
Parent expectations vs. pedagogy	grade focus over mastery	show growth evidence (pre/post samples) and clear rubrics.
Multi-partner projects drifting	unclear RACI: Responsible, Accountable, Consulted, dan Informed	define who approves, who does, who consults, who is informed.

Example: launching a “Reading Across Subjects” week

Students

co-create reading choices; daily 5-minute reflections; peer-led book talks.

Families

one-page home guide with 3 prompts for dinner chats; optional read-aloud night.

Teachers

shared schedule, one rubric for all subjects (comprehension, evidence, reflection).

Counselor/Librarian

curated lists at varied levels; quiet spaces; support for reluctant readers.

Leadership

approve timetable tweaks; highlight goals (attendance, engagement); end-of-week showcase.

External partner

local bookstore or alum author talk, 30 minutes + Q&A.

Regulators/funders

tag to literacy standards; brief evidence pack (photos, student samples, attendance).

Communication Skills to Have

In order to break the wall of communication, skills are required

Non-Verbal Communication

Non-verbal communication is relying instead on body language, facial expressions, gestures, posture, and eye contact, adding context and meaning to interactions.

Communication

Communication is the process of sending and receiving messages. It involves the exchange of information between two or more people. Communication can be verbal or non-verbal. Verbal communication involves the use of words, either spoken or written. Non-verbal communication involves the use of body language, facial expressions, and gestures.

Ability to

Ability to communicate effectively is a key skill for success in many areas of life. It involves the ability to listen, understand, and respond to others. Effective communication is essential for building strong relationships, resolving conflicts, and achieving goals.

Emotion Control

Kayaknya bakal dilihat bagus deh kalau aku ajak ngobrol kakaknya duluan

Descriptive Gestures

help **indicate position, location, size, shape, or number**

Emphatic Gestures

underscore **strong emotions, conviction, or the importance of a point**

Suggestive Gestures

can **symbolize thoughts, emotions, or actions**, such as an open palm suggesting giving or receiving ideas,

Prompting Gestures

Body movements or signals used to **elicit a response or encourage someone to take a specific action.**

Communication Skills to Have

In order to break the wall of communication, skills are required

Non-Verbal Communication

Non-verbal communication is relying instead on body language, facial expressions, gestures, posture, and eye contact, adding context and meaning to interactions.

Assertive Communication

Respectful way of expressing your thoughts, feelings, and needs while also considering the rights and perspectives of others. It promotes honest dialogue, healthy boundaries, and confidence without being aggressive or passive.

Ability to

Emotion Control

Interactive

Test

Parents push for more grades over mastery. As a teacher, which response best realigns expectations?

A. Promise more graded tasks to reassure families

B. Avoid grade talk; keep conversations short

C. Show growth evidence (pre/post samples) and clear rubrics in conferences
