

General Report on the Manager Coaching Session

Coaching Topic Highlight

For Rizky Anugrah Ananto

Document Owner/Coach

Irvandias Sanjaya, S.Psi., CPC., CMT.

Document Receiver: Demandlane

Date Submitted: July, 2026

This coaching report is the dedicated document for Demandlane.

Summary of Participants and Programs

Participant's Name

Rizky Anugrah Ananto

Implementation

Google Meet, 17 July & 13 August 2026

Featured Case

Leadership Communication

Development Objectives

Develop SMART follow-up commitments for managing scope, priorities, and stakeholders.

Limits of Interpretation

This report describes individual learning experiences during the short-term program. The results do not constitute a formal performance evaluation or evidence of organizational change.

Measurement Framework

Self-Check

Participants' perceptions of the frequency of the behavior.

Subordinate check

The subordinate's experience prior to coaching.

Observasi fasilitator

Evidence of behavior during case discussions and role-plays.

Output praktik

Template quality and app commitment.

Baseline Assessment Result

Aspect	Self Check	Subordinate check
Clarity and Setting Expectations	56	90
Listening and asking questions	68	84
Specific feedback and accountability	52	79
Handling Difficult Conversations	88	79

Baseline Assessment Result

Strength

Self Check

Communicates effectively in a remote, cross-time-zone environment by providing concise and timely updates through Slack, helping the team stay aligned while reducing unnecessary meetings and meeting fatigue.

Subordinate check

Demonstrates clear, proactive, and constructive communication by providing specific feedback, consistently following up on project progress, sharing important changes with relevant team members, encouraging direct discussion, and creating space for everyone to communicate their actions and plans.

Development Priorities

Strengthen preparation for meetings and synchronous discussions by organizing key points and notes in advance, enabling clearer, more confident, and more fluent communication.

Strengthen communication by responding more promptly to blockers while maintaining clear role boundaries, ensuring team members receive timely support without unnecessary involvement that could reduce their ownership or credibility with business stakeholders.

Development Plan Summary

Rizky Anugrah Ananto

needs to strengthen these coaching aspects:

Specific feedback
and accountability

DAY 1

- Giving timely, specific feedback, explaining its impact, involving the team member in improvement actions, and setting clear follow-up expectations.

Listening and
asking questions

DAY 2

- Understanding team members by listening fully, asking open questions, clarifying key information, and confirming understanding before giving direction.

Coaching Summary

Session 1

Session Focus

Develop SMART follow-up commitments for managing scope, priorities, and stakeholders.

Overview of the Case Under Discussion

The coachee faced limitations in the team's capacity: the analysts did not yet have assigned tasks and could not yet divide up the work because they were handling a flagship project. The coachee explored three options, comparing their impact, risks, ramp-up time, and bandwidth limits; then selected Option 3. The plan included aligning the scope with Jagat, briefing the counterpart, and providing guidance to subordinates.

Areas for improvement

- Distinguish between facts, assumptions, and patterns when diagnosing challenges, including information that is not yet available and controllable factors.
- Transform action plans into clear, measurable SMART commitments.

Things to Practice After the Coaching Session 2

- Write an action plan for Option 3 using the following format: action, owner, timeline, success metrics, and checkpoints.
- Outline the support needed from stakeholders in a single sentence, then confirm the approval and roles of Jagat, the counterpart, and subordinates.
- Establish a response or escalation process in case of obstacles during plan implementation.

Coaching Summary

Session 2

Session Focus

Leadership communication to empower team members with different development needs.

Overview of the Case Under Discussion

The coachee wants to strengthen empowerment within the team and recognizes two distinct employee groups. The first group is highly exploratory and proactive; the coachee is considering how to best contribute to and guide their continued development. The second group consists of experienced, dependable subject-matter experts who tend to remain in their comfort zones. The coachee aims to help both groups grow through differentiated development programmes over the next six months.

Areas for improvement

- Tailor leadership communication, level of direction, and development support to the readiness and needs of each employee group.
- Translate the aspiration to empower the team into a structured six-month development programme with clear outcomes.

Things to Practice After the Coaching Session

- By the next session, define the two employee groups using observable criteria, development needs, and desired behavioural outcomes.
- Schedule individual conversations with representative team members to understand their aspirations, current barriers, and the support they need.

Assignment 1 Score

Aspects (1-5 Score)

Role Play		
	Commitment to follow-up	3
	Decisions and Stakeholders	5
	Exploring options	5
	Diagnosing Challenges	2

SMART Action Plan

Specific

Give team members ownership of action items so Rizky no longer does all the work.

Measurable

Team members deliver directly to business users. Rizky monitors and steps in only when escalation requires it.

Attainable

Use business requests as practice opportunities. Team members deliver outputs and receive feedback directly.

Relevant

Delegate clear, low-to-mid priority work that does not require major decisions. Effort may vary by task.

Timely

Practise daily when business requests arise. The participant reports a coach review on 14 August 2026.

Source: Session 2 IDP, 26 August 2026. Checkpoints, progress status and the 72-hour commitment are unspecified.

SMART ACTION PLAN

Tulis rencana yang cukup spesifik untuk dicoba, diamati, dan ditinjau bersama coach.

SMART	Panduan	Rencana peserta
S Specific	Ryaskan audien, topik, kejuruan yang ditunjukkan, dan satu perilaku komposit yang akan diubah.	Target audien nya merupakan subordnate saya yang akan mulai memiliki action items dan bukan saya yang selalu mengerjakan.
M Measurable	Terapkan bukti pesan satu menit, fakta vs persepsi, nilai yang jelas, response diulang, dan pemahan.	Buktinya berupa subordnate saya yang sudah mulai mengerjakan dibawahnya kepada koordinator saya, dan saya hanya perlu mengawasi dan meng-inspire apa tindakan yang menentukan saya.
A Attainable	Pilih kesempatan praktik terdapat, terdapat singkat, serta orang yang dapat membantu untuk baik.	Saya akan mengerjakan pertemuan yang muncul dan berusaha sama sebagai kesempatan yang bisa subordnate saya gunakan untuk belajar dan memberikan hal yang baik. Dan itu subordnate bisa lebih mengetahui apabila tim saya memberikan umpan balik daripada saya harus selalu memantau.
R Relevant	Hubungkan komunikasi dengan prioritas, risiko, kapabilitas, dan keyakinan atasan.	Saya mengamat pekerjaan yang low-to mid priority yang bisa saya berikan kepada subordnate saya. Terus saya effort nya bisa beres dan yang sudah para atasan yang membutuhkan kepastian (benefit).
T Timely	Terapkan tanggal latihan, forum, risiko, checkpoint, dan review bersama coach.	Latihan saya terhadap subordnate saya akanlah setiap hari apabila sudah tugas dan lain-lain. Terjadi review dengan coach saya setiap minggu di tanggal 14 Agustus 2024.
