Academic

A vertical list of logos for various Indonesian companies. The logos are arranged from top to bottom: 1. ANGKASA PURA II logo with a colorful circular icon and the tagline 'The Leading Indonesia's Airport Company'. 2. PAMA logo featuring a stylized yellow and blue square icon. 3. PERTAMINA INTERNATIONAL SHIPPING logo with a colorful geometric icon. 4. Kormo Jobs logo with a colorful geometric icon. 5. BANK INDONESIA logo with a blue circular icon and the tagline 'BANK SENTRAL REPUBLIK INDONESIA'. 6. Skill Academy logo with a blue geometric icon and the tagline 'By Ruangguru'. 7. gojek logo with a green circular icon. 8. PERTAMINA TRANS KONTINENTAL logo with a colorful geometric icon.

The image displays three logos arranged vertically. At the top is the official seal of the Government of the Republic of Indonesia, featuring a central figure holding a sword and a shield, surrounded by a circular border with the text 'REPUBLIK INDONESIA' and 'KEMENTERIAN DALAM NEGERI'. Below this is the logo of the Government of DKI Jakarta, which is a shield-shaped emblem with a green background, a white building, and a blue banner at the bottom that reads 'DKI JAKARTA'. At the bottom is the logo for Jakarta Smart City, featuring a stylized blue and white grid pattern to the left of the text 'jakarta smart city' in a lowercase, sans-serif font.

SOC Analyst & Pentester Career Paths

SOC Analyst

Role: Monitor, detect, and respond to security threats in real-time

Key Skills:

- SIEM tools (Splunk, QRadar, Wazuh)
- Log analysis & threat intelligence
- Incident response procedures

Growth Path:

SOC Analyst → Senior SOC → SOC Lead → Security Manager

Top Employers:

BCA, Mandiri, BNI, Telkom, XL, MSSPs

Penetration Tester

Role: Simulate cyberattacks to find vulnerabilities before hackers do

Key Skills:

- Network & web app pentesting
- Exploit development
- Reporting & remediation

Growth Path:

Jr Pentester → Pentester → Senior → Red Team Lead

Key Certs:

OSCP, CEH, eJPT, PNPT

GRC & Cloud Security Career Paths

GRC Specialist

Role: Ensure organization meets security standards, regulations, and manages risk

Key Skills:

- Risk assessment & audit
- Policy development
- ISO 27001, PCI-DSS, GDPR

Growth Path:

GRC Analyst → Senior GRC → Risk Manager → CISO track

In Demand At:

Financial institutions, government, healthcare, enterprises

Cloud Security Engineer

Role: Secure cloud infrastructure across AWS, Azure, GCP

Key Skills:

- Cloud platforms (AWS/Azure/GCP)
- IAM & container security
- DevSecOps practices

Growth Path:

Cloud Security Eng → Senior → Cloud Security Architect

Key Certs:

AWS Security Specialty, Azure Security, CCSP

Your CV, LinkedIn, and portfolio should tell one consistent cybersecurity story:

the role you target, the security problems you can solve, the tools you can use, and evidence that your work improved risk, detection, response, or resilience.

Irvandias Sanjaya S.Psi., CCP.

Career Coach and Consultant

Jakarta | [+62 21 123456789](tel:021-123456789)

irvandiasanjaya@gmail.com | [linkedin.com/in/irvandiasanjaya/](https://www.linkedin.com/in/irvandiasanjaya/)

SUMMARY

Young professional with five years of professional working experience in a previous business development team with the last position as a partnership manager. Currently pursuing a career in career development as a Certified Coach Practitioner (Career Coach) with a total of >100 hours of coaching and >70 brands handled in various programs (training, public speaking, and mentoring), skilled in human resources, training, curriculum & learning development, and project management.

EXPERIENCE

Rumah Slang Kerja | Jakarta, Indonesia (Full-Time)

Career Coach Associate (October 2021 – **present**)

- Conduct one-on-one coaching sessions (90 coachings executed) according to the schedule and coaching topics (self-discovery, opportunity discovery, career plan, and job-ready) in (partial/package) ordered by the client with a 4.9/5 rating feedback (ongoing).
- Report the daily-weekly-monthly client's coaching progress and evaluation to the stakeholders (master coach and learning team supervisor).
- Evaluate and provide personalized feedback regarding the results of the client's Individual Development Plan (IDP) and assignments on the website.
- Execute weekly Slang Kerja Talks webinar (14 sessions ran) with 4.9/5 rating feedback given by >150 attendances.

RevoU | Jakarta, Indonesia (Freelance)

Career Coach (March 2021 – **present**)

- Promoted as a Senior Career Coach (Tier 4/highest out of 4 tiers) due to achievements from 2 years of contributions.
- Provide one-on-one career coaching (300 hours of coaching in total) and (90 students total handled) for the RevoU career support students from batches 5-10.
- Advise students' assets (CV, LinkedIn, and portfolio) throughout several intensive consultations for job application needs.
- Supported 20 times HR mock-up interviews for >100 students and evaluated interview preparation both verbally and report-based.
- Delivered >50 job seeker students' job placements across digital marketing positions for the students with an 85% success rate out of the total assigned students.
- Executed 4 times of two weeks of intensive career support-related programs with an average feedback review of 4.85/5.00 from a total of 500 students, with 90% class attending retention.
- Contributed as speaker expert for RevoU Mini Course program for a total of 15 sessions with a 4.76/5.00 rating from a total of >2000 online participants who joined.

Glints Academy | Jakarta, Indonesia (Full-Time)

B2B Career Readiness Task Force Team Lead (August 2021 – October 2021)

- Handled 7 Singapore and Hong Kong-based companies ranging from startup-multinational with 40 head accounts from the candidate assessment meetings until program operations running.
- Secured 54 (out of 55) student candidates' placement for IT & non-IT positions in under 2 months with a 96% success rate.
- Led 3 team members (career specialist officer & associate) and collaborated with student success, placement, education, and operations teams.

Career Specialist Associate (May 2021 – August 2021)

- Designed career preparation events for the incoming class of 35 intensive Bootcamp students batch 12 during June - July 2021; delivered topics: LinkedIn Optimization, Path Career, and Scholarship.

PT Gotong Royong Berdampak (GRB) | Jakarta, Indonesia (Full-Time)

Partnership Manager (September 2019 – January 2021)

- Managed 10 B2B partnerships across multilayer stakeholders (Corporate, NGOs, and Donors).

The CV has been updated per March, 13th 2023

How ATS Screening Works

ATS tools store, search, and rank applications differently. Do not try to “beat” them; use standard headings, readable formatting, and truthful keywords that match the role.

Curiosity hits:

Can an **ATS** and a **security hiring manager** quickly find your target role, core tools, and strongest evidence?

Export to
check that role titles, tools, certifications, and p
searchable.

wellfound:
formerly AngelList Talent

Use a mix of company career pages, professional networks, security communities, internship programs, and reputable job portals. Search by role family; not only “cybersecurity.”

Curiosity hits:

Search by Role Family

Which **three role titles**
best match your current
evidence and next
learning goal?

Try specific terms: SOC Analyst, Security Operations
IAM, Vulnerability Management, Application Security
Pentester.

What's Inside the CV?

Main Information

- ✓ Target role and professional summary
- ✓ Contact details and LinkedIn
- ✓ Technical skills and security domains
- ✓ Experience and cybersecurity projects
- ✓ Education and relevant training
- ✓ Certifications with verification links

Additional

- ✓ CTFs and labs
- ✓ Responsible disclosure
- ✓ Security writing or presentations
- ✓ Open-source or community contributions

<https://bit.ly/CVATSDIAS>

SNEAKING

- Full name
- Professional email and phone
- City / work-location preference
- Customized LinkedIn URL
- GitHub, lab profile, or portfolio URL

- Prioritize security-relevant work, labs, CTFs, internships, and projects.
- For each entry: state the context, your action, tools or methods, and a truthful outcome.
- Translate adjacent experience (IT support, networking, audit, or operations) into security-relevant capabilities.

- Include formal education plus relevant bootcamps or training.
- Add selected coursework only when it supports the target role.

- Group technical skills by domain: SIEM/log analysis, networking, Linux, scripting, cloud/IAM, vulnerability assessment, and frameworks.
- List only tools you can discuss or demonstrate.

About Me

Your summary should answer: Which cybersecurity role are you targeting, what can you do, and what evidence supports it?

SUMMARY 1

Young professional with over six (6) years of experience in people development, covering various roles including talent manager, career consultant, coach, and trainer, with a strong understanding of B2B sales proven by two (2) years of experience as a partnership manager as his earlier career path. His track record includes over >550 hours of coaching, training, and consulting, and handling >250 national and international brands (academic, business, government, community, and media). Holding a bachelor's degree in Psychology from Universitas Gadjah Mada honed his skills in human resources, training, curriculum and learning development, and project management. 2

Write 2–4 concise lines.

1. Name **the target role** or security domain.
2. Include **3–5 relevant capabilities** or tools.
3. Add one **proof point from a project**, lab, internship, or adjacent role.
4. Avoid unsupported labels such as “expert” or “highly skilled.”

Education & Relevant Training

Show the learning that supports your target cybersecurity role.

EDUCATION

3

- 1 Universitas Gadjah Mada (UGM) | Yogyakarta, Indonesia 1
- 1 Bachelor of Psychology (August 2013 - January 2019) 1
 - 1 - GPA: 3.24/4.00 [\[transcript\]](#)
 - 1 - Relevant Coursework: Industrial-Organizational Psychology, Personnel Psychology, and Psychological Assessment.
 - 1 - Academic Reward: [1st Winner, Most Outstanding Student](#), Faculty of Psychology, UGM (2017)
- 1 Arizona State University | Arizona, USA
- Non-Degree Program - Social Entrepreneurship & Economic Development (March - June 2018)
 - Achievement: [Young South East Asian Leaders Initiative \(YSEALI\) Academic Fellowship Program](#) 2018
- Thammasat University | Bangkok, Thailand
- Non-Degree Program - Safety Management (August - October 2016)
 - Achievements: [Best Student and Best Project Presenter](#) & AUN Scholarship Grantee (2016)
- Wzard | Remote
- Non-Degree Program - [Alternative \(ALT.\) MBA Program](#) (January - March 2025)
 - Achievement: Merlin Scholarship Awardee (<15% awardees granted).
 - Relevant Coursework: Business Fundamentals, Market Sizing, Digital Marketing, Finance, Sales, & People Management.

List institution, program, dates, and completion status.

1. **Add relevant coursework** such as networking, operating systems, cloud, risk, or secure coding.
2. **Include bootcamps and structured labs** when they add role-relevant evidence.
3. Do not list every course; **prioritize what the job description requires.**

Experience

Use the same evidence standard for employment, internships, volunteering, labs, CTFs, and security projects.

EXPERIENCE

1 **Rumah Siap Kerja** | Jakarta, Indonesia (Full-Time) 1

1 **Coach** (October 2021 – **present**) 1

- Conduct one-on-one coaching sessions (>250 coachings executed from >200 coachees for single and repeat orders) according to the schedule and coaching topics (self-discovery, opportunity discovery, career plan, and job-ready) in (partial/package service) ordered by the client with a 4.9/5 rating feedback (ongoing). 2
- Handle daily Siap Karier Coaching operations (coaching programs, coaches' relationship management, and technical support) to ensure 100% success coaching rate clients' satisfaction.
- Execute *Siap Karier Talks, Pra-Kerja, Entrepreneurship Bootcamp, and B2B&G* webinars (50 sessions ran) with a 4.9/5 rating in average feedback submitted by >3.000 attendances.

State role, organization or project, dates, and scope.

1. **Use Action + Context + Evidence:** what you did, in what environment, using which method or tool, and what changed.
2. Use up to **four relevant bullets** per entry.
3. **Do not invent metrics.** If no outcome metric exists, quantify scope, coverage, time, or deliverables.

r/resumes · 3 mo. ago
SimplyYulia

I don't really feel i have any achievements to put as "work experience"

Question

Yesterday I was told that I'm getting fired in about a month (not for anything I did but they are basically cutting contracts with people working abroad for some internal reasons), so now I'm back in job searching bullshit

I am a professional, I've been doing software development for nine years - but I worked in two companies total, without job jumping, so I have very little experience in doing actual job search. I'm composing a resume right now, writing job experience and struggle with this. See, resume samples that I find, list some big achievements there, like "Created a feature that on its own increased our income by 3000%" and stuff. I don't think I have any achievements like that. I just do my job, and do it well, complete tasks that I'm given, fix bugs that pop up, very occasionally suggest some code architecture improvements and so on and so forth. I didn't receive any complaints, but no major praise either - just "Yeah, no specific feedback, you're doing great". Nothing outstanding, just honest and mostly diligent work. But it doesn't really look good on a resume - what should I do about that?

80

20

<https://ocs.yale.edu/resources/writing-impactful-resume-bullets/>

Choose **one cybersecurity project**, lab, internship, or adjacent work experience that best demonstrates your target role.

Action + Method

- What security task did you perform?
- Which method, framework, query, command, or tool did you use?

Evidence / Scope

- What environment or dataset did you work with?
- What did you detect, test, reduce, document, or improve?
- What evidence can you safely show?

Security Outcome

- How did your work improve visibility, prioritization, response, control coverage, or risk understanding?

SOC

Example:

- Analyzed 250 simulated Windows authentication events in Wazuh, investigated repeated failed logins, and documented three detection rules with triage steps.

IR

Select one key experience from each setting (organization, work, or project) that best represents your capabilities.

Incident-response example:

- Built a phishing triage playbook covering header analysis, URL reputation, containment, escalation, and evidence preservation.

Action Verbs

Quantitative Result

Specific Impact

The work

Cloud

WDYT:

Cloud example:

Why must cybersecurity bullets show **action**, **context**, **evidence**, and **security relevance**?

GRC

example:

Mapped 32 simulated controls to ISO 27001 requirements, identified six evidence gaps, and created a prioritized remediation tracker.

le:

Used a legal lab web application using Burp Suite and OWASP testing methods, validated four findings, and produced remediation steps for simulated Windows authentication events in vasp and documented three detection rules with made steps.

irvandiasanajaya

irvandiasanajaya@gmail.com / kerjacerdias@gmail.com

Irvandias Sanjaya

irvandiasanajaya

WDYT:

Because security hiring relies on trust. **Specific, verifiable evidence** helps reviewers distinguish hands-on capability from keyword claims.

Experience

This explanation will be applicable for **working**, **organization**, and **project** experience.

Applying as Junior SOC Analyst

Monitored security events and handled incidents properly.

Applicant

Notes

1. Write down the **position detail** for the experience.
2. Pour the details of your experience.
3. Use **Justified** alignment.
4. **4 bullet points** maximum.
5. Use **V1 for the ongoing experience** (e.g., modified and crafted).

Which events? What environment?
Which tools? What investigation steps?
What evidence shows "properly"?

HR

Admin

Select one key experience from each setting (organization, work, or project) that best represents your qualifications.

Example :

- Maintained administrative records and organized documentation workflows, handling approximately 350+ records per week, resulting in more efficient filing systems and smoother daily operations.

Quantitative Result

Specific Impact

UI/UX

WDYT:

Where can you find truthful evidence for scope and outcomes in cybersecurity work?

Digital Marketing

Example :

- Tracked and compiled digital campaign and content performance data, reviewing around 40–60 content assets per month, supporting data-driven optimization and clearer performance reporting.

- Collected, cleaned, and validated datasets, processing approximately 1,200+ data points per month, ensuring high data accuracy and for analytical insights.

How to Display Projects on Your CV

AQS Framework for Project Descriptions

Action verb + Quantifiable result + Specific task

Example: "Conducted vulnerability assessment on **15+ network nodes** using Nmap and OpenVAS, identifying **8 critical vulnerabilities**"

Project Structure on CV

- Project Name | Your Role | Time Period
- List Tools & Technologies Used
- Max 4 bullet points per project
- Include project links (GitHub, portfolio)

Digi Youth Final Project Tip

Mention the Digi Youth program name, highlight hands-on labs, and tie skills directly to job descriptions

CV Project Example – Digi Youth Final Project

Cybersecurity Risk Assessment – Digi Youth Final Project

Security Analyst | Digi Youth Program | Aug-Dec 2025

- Performed comprehensive risk assessment on a simulated enterprise network, identifying **12 security gaps** across 3 critical systems
- Configured and deployed **Snort IDS** and **Wazuh SIEM** for real-time threat detection, reducing incident response time by **40%**
- Delivered a detailed remediation report with **CVE references** and prioritized fix recommendations to stakeholders
- Presented findings to a panel of 5 industry mentors, earning **Top Project recognition**

Tools: Nmap, OpenVAS, Snort, Wazuh, Wireshark, and Metasploit

Additional Information

Use this section to show role-relevant security capabilities and verifiable credentials.

HONORS, AWARDS, and SKILLS (ADDITIONAL INFORMATION)

4

- 1- **Soft Skills:** Coaching, Leadership, Public Speaking (Training), and Project Management.
- 1- **Technical Skills:** Microsoft Office (Excel, PowerPoint, and Word), ATS Software, Module Development, Learning Management System, and SPSS.
- 2- **Certifications:**
 - 1. [Certified Coach Practitioner](#) (CCP), issued by Strategy Coaching Academy 2 October 2022 2
 - 2. [Life Coach Practitioner](#) (LCP), issued by Indonesian Association of Life Coach 2 July 2022 2
 - 3. [Certified Public Speaking](#) (CPS), issued by Welldone Skills 2 September 2023 2

3

Group technical skills by domain, not as one long tool list.

- 1. Separate practiced skills from awareness-level knowledge.
- 2. For certifications, include issuer, status/date, and verification link when available.
- 3. Never claim a certification before it is awarded; label preparation or scheduled exams clearly.

How to Display Certifications on Your CV?

Recommended Format

Certification Name | Issuing Organization

Date Obtained | Credential ID / Verification Link

Place after Education or in a dedicated Certifications section

Best Practices

Prioritize recognized certs: CompTIA Security+, Google Cybersecurity, CEH

Include expiration dates for certs requiring renewal

Add verification links – Indonesian recruiters often verify authenticity

Group by category (Security/GRC/Cloud) if you have 5+

Highlight "in-progress" certs to show commitment

CV Certifications Section Example

CERTIFICATIONS

CompTIA Security+ (SY0-701)

CompTIA | Expected Mar 2026

Google Cybersecurity Professional Certificate

Google via Coursera | Oct 2025

credly.com/badges/xxxxx

TryHackMe SOC Level 1

TryHackMe | Dec 2025

tryhackme.com/p/username

Digi Youth Cybersecurity Program

OCBC x Dibimbing | Sep-Dec 2025

[Certificate of Completion](#)

[Certificate of Completion](#)

TryHackMe & Google Cybersecurity Certificate

TryHackMe

Platform: Gamified, hands-on cybersecurity training with virtual labs

Best For: Complete beginners building foundational skills

Key Learning Paths:

- Pre-Security (absolute beginners)
- Complete Beginner
- Jr Penetration Tester
- SOC Level 1

Cost: Free tier; Premium ~\$10/month (**Rp 150K**)

Value: Earn badges & certificates – great for LinkedIn and CV

Google Cybersecurity Certificate

Program: 8-course program by Google, no prior experience needed

Covers:

- Security fundamentals
- Python & Linux basics
- SIEM tools (Splunk, Chronicle)
- Incident response

Cost: ~\$49/month on Coursera (financial aid available)

Duration: 3–6 months part-time

Recognition: Valued by Indonesian employers as solid entry credential

CompTIA Security+ & Your Certification Roadmap

CompTIA Security+ (SY0-701)

Coverage: Threats, architecture, implementation, operations, governance

Cost: ~\$404 USD (**Rp 6.3M**) – academic discounts available

Exam: Max 90 questions, 90 min, pass 750/900

Value: DoD 8570 approved – valued by MNCs in Indonesia

Prereq: TryHackMe + Google Cert or 6–12 months study

Tips

Look for bundled exam vouchers on Indonesian IT training platforms like Course-Net, Hacktiv8, or Binus Center for discounts up to 30%.

Recommended 12-Month Certification Roadmap

Month 1–3 **TryHackMe** – Pre-Security + Complete Beginner paths

Month 3–6 **Google Cybersecurity** Professional Certificate

Month 6–9 **TryHackMe** SOC Level 1 or Jr Pentester path

Month 9–12 **CompTIA Security+** preparation & exam

Year 2+

Specialize Based on Career Path:

OSCP (Pentest) | CISSP (Management) | AWS Security (Cloud)

This roadmap is flexible – adjust based on your pace and prior experience.

Irvandias Sanjaya

irvandiassanjaya

Common Mistakes

1. **Generic CV** sent to every security role
2. Tool lists **without evidence of use**
3. **Unverifiable claims** or invented metrics
4. **No target role or security domain**
5. Confidential data, client names, IP addresses, credentials, or exploit details **exposed**
6. **More than two pages** without relevant depth
7. **Typos**, inconsistent dates, or broken links

Supporting Platforms

Prefer a simple
ATS-readable
layout

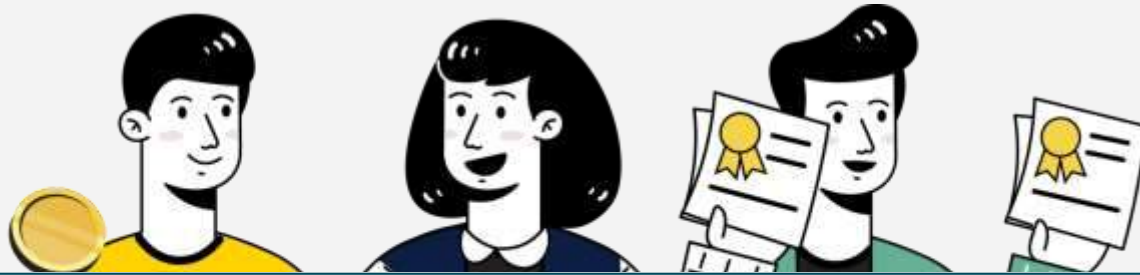

Tailor content to
the target
security role

Check clarity,
truthfulness, and
technical accuracy

**Use free tools to review (not fabricate)
your evidence**

● **Are there any questions?**

LET'S CONNECT

For cybersecurity candidates, LinkedIn is a searchable professional profile that connects your target role, technical evidence, learning activity, and network.

<https://www.resume-now.com/job-resources/jobs/resume-statistics>

Use it to make your target role and security domains searchable.

Use it to publish or feature privacy-safe evidence of hands-on work.

Use it to learn from practitioners and build relevant professional relationships.

[Click here to get your LinkedIn Checklist!](#)

LinkedIn vs Other Social Media

Other Social Media

All the Facebook up to
TikTok is for your
personal

LinkedIn

LinkedIn is designed for
your **professional**
purposes

LinkedIn Mission

Connect the world's professionals to make them more productive and successful

"Active participation on LinkedIn is the best way to say, 'Look at me!' without saying 'Look at me!'"

—Bobby Darnell, Principal of Construction Market Consultants

Why

Why LinkedIn matters for cybersecurity candidates

- Signal your target role and security domains.
- Show verifiable projects, credentials, and technical writing.
- Follow threat research, vendor updates, communities, and practitioners.
- Research teams, tools, and role expectations before applying.
- Build relationships before you need a referral.

The value is not profile completeness alone; it is credible evidence plus relevant professional relationships.

Profession for Cyberspace

- Your profile should make a consistent claim: the security problems you want to work on, the capabilities you are building, and the evidence that supports them.

**“LINKEDIN IS NO LONGER AN
ONLINE RESUME. IT’S YOUR
DIGITAL REPUTATION.”**

Jill Rowley
Social Selling Evangelist

LinkedIn in Numbers

to Consider

9 out of 10

Employers are using LinkedIn during the hiring process
To examine the candidate's background thoroughly

(**JOBVITE** survey on **Forbes**)

25 Million Job Seekers

Visit LinkedIn every week to seek the possibilities of the hiring process
Held by companies for positions ranging from full-time to freelance

(**LinkedIn** Research **VCS**)

87% Recruiter

find LinkedIn to be the most effective when vetting
candidates during the hiring process, especially those
under 45 (90%).

(**JOBVITE**)

LinkedIn is But the problem is spotted on..

93% of recruiters use LinkedIn to find candidates, but only 50% of LinkedIn users have a 100% complete profile

What's Inside the LinkedIn?

Main Information

- ✓ Professional photo and headline
- ✓ Target role and security domains
- ✓ About section
- ✓ Relevant experience and projects
- ✓ Technical skills by domain
- ✓ Education and training
- ✓ Verifiable certifications

Additional

- ✓ Featured evidence
- ✓ Security writing
- ✓ CTFs and labs
- ✓ Community contributions

Cross-check your CV, LinkedIn, GitHub, and portfolio. Role titles, dates, tools, project scope, and outcomes should be consistent and truthful.

[Click here to get your LinkedIn Checklist!](https://bit.ly/LinkedInChecklistDias)
bit.ly/LinkedInChecklistDias

Profile Photo

- **Semi-formal** (*it's not the same as the KTP type of photo*).
- **Professional-looking headshot** (*it covers $\frac{3}{4}$ a total of the whole photo*).
- **Professional** attire and a clean background (*don't let people be distracted by the background compared to your photo itself*).
- Using a **t-shirt** is acceptable as long the photo pose is natural
- Cheers with a **smile**.

[Click here to get your LinkedIn Checklist!](#)

Profile LinkedIn URL

 linkedin.com/in/irvandiassanjaya/

Edit public profile & URL

**Customize
LinkedIn
URL**

- Not being followed any kind of the following below by behind the name.
 1. **Numbers**
 2. **Strips**
 3. **Symbols**
- Small matters but has a huge impact on professional looks
- Get the full name taken behind the line before somebody does

[Click here to get your LinkedIn Checklist!](#)

Headline

Irvandias Sanjaya, CCP 🗣️ (He/Him)

Career Consultant and Certified Coach Practitioner | Public Speaker | LinkedIn Power Profile 2018 | YSEALI Academic Fellow | Personal Branding Practitioner | Podcaster

Build a searchable, evidence-based cybersecurity headline

- Use: target role | security domains | strongest evidence or tools

Examples:

1. Junior SOC Analyst | SIEM, Log Analysis, Incident Triage | Wazuh Labs
 2. Aspiring GRC Analyst | Risk Assessment, ISO 27001, Control Mapping
 3. Cloud Security Learner | AWS IAM, Linux, Python | Hands-on Projects
- Avoid “expert” unless your experience clearly supports it.

[Click here to get your LinkedIn Checklist!](#)

Header

- Use a clean banner to reinforce your target domain; for example SOC, cloud security, GRC, or application security.
- Optional: add a short value statement or portfolio URL. Do not expose personal contact details, employer systems, or sensitive screenshots.

[Click here to get your LinkedIn Checklist!](#)

About

About

Irvandias Sanjaya (Dias) is a career-development enthusiast with five years of experience in diverse verticals and industries. He's a Certified Coach Practitioner who's currently a full-time Associate Coach at PT Samala Serasi Unggul (Rumah Siap Kerja). As a side hustle, Dias takes part in as a Career Coach and External Expert at IKIGA! Consulting. He has a total of >100 hours of career coaching with successfully delivered >50 job-seekers landing jobs. Before, he worked in an impact consulting company, PT Gotong Royong Berdampak (Artemis Impact), as a partnership manager for two years and co-established a disability-centered economic-based inclusion platform, DesignforDream.id, during college.

Explain your cybersecurity direction and evidence

[Click here to get your LinkedIn Checklist!](#)

- Structure your About section:
 1. **Target role or security problem you want to solve.**
 2. **Relevant background, including transferable experience.**
 3. Security domains, methods, and tools you have practiced.
 4. One or two evidence-backed projects or outcomes.
 5. Current learning goal and professional call to action.
- Write in clear English or Bahasa Indonesia; choose the language your target audience can evaluate.

Details Experience

Rumah Siap Kerja provides young people with career guidance and appropriate professional training. RSM aims to improve the quality of human resources and help reduce numbers in Jakarta and throughout Indonesia.

My responsibilities are as follows:

- Conduct one-on-one coaching sessions according to the schedule and coaching four (4) topics (self-discovery, opportunity discovery, career plan, and job-ready) in (partial/package) picked by the Coachee.
- Report the daily-weekly-monthly Coachee's coaching progress and evaluation to the master coach.
- Evaluate and provide feedback regarding the results of the Coachee's Individual Development Plan (IDP) assignments.
- Deliver "Effective Communication" topic presentation to the B2B corporate partners and 2 weeks of mentoring sessions.

Achievements

- Received a 4.88/5 feedback rating from Coachee's coaching session.
- Conducted >100 hours of coaching across four (4) career development topics.
- Delivered >15 webinars and mentorship programs executed by Rumah Siap Kerja

Skills: Public Speaking - Career Counseling - Career Development - Career Preparation - Coaching - Empathy Mapping - Report Writing - Interpersonal Skills - Interpersonal Communication - Communication - ... see more

Describe security work with enough context to be credible

[Click here to get your LinkedIn Checklist!](#)

- For each role or project include:
 1. Organization or legal lab environment
 2. Role, dates, and scope
 3. Security objective or problem
 4. Actions, methods, frameworks, and tools
 5. Verified outcome, coverage, or deliverable
 6. Relevant skills
 7. Privacy-safe supporting media
- If the work is confidential, describe the capability and impact without exposing protected details.

Showcasing Projects on LinkedIn: Profile

PT Berlian Sistem Informasi
3 yrs 11 mos
On-site

- Cyber Security Engineer (Offensive Security)**
Contract
Sep 2023 - Present · 10 mos
Jakarta, Indonesia
- Conduct vulnerability assessments and penetration testing to identify exploitable risks.
 - Provide remediation guidance to reduce attack surface across applications and infrastructure.
 - Collaborate with IT and security teams to validate findings and strengthen controls.
 - Improve internal testing workflows and support continuous security improvements.
- ♥ Cyber Defense, Information Security Engineering and +6 skills
- Cyber Security Engineer (Endpoint Security)**
Contract
Feb 2023 - Aug 2023 · 2 yrs 7 mos
South Jakarta, Jakarta, Indonesia
- Implemented endpoint security controls to protect enterprise devices from malware and emerging threats.
 - Managed patching & security updates for 800+ endpoints, improving compliance and reducing vulnerabilities.
 - Operated EDR platforms for proactive detection, investigation, and incident response.
 - Optimized access control policies and collaborated cross-functionally to align with industry standards.
- Projects:
 - DLP & CASB Implementation — Microsoft Purview, Intune
 - EDR & Anti-malware Deployment — Microsoft Defender for Endpoint, Trelix Endpoint Protection
- ♥ Application Managed Services, Troubleshooting and +13 skills
- Cyber Security Engineer Trainee**
Aug 2022 - Feb 2023 · 7 mos
South Jakarta, Jakarta, Indonesia
- Covered networking fundamentals: OSI model, IP addressing, VLANs, routing, and ACLs.
 - Learned basic security operations: endpoint, network, email security, and IAM.
 - Gained hands-on experience with Fortigate firewall: policies, authentication, VPN, and log monitoring.
- ♥ Log Management, Network Access Control (NAC) and +5 skills

THREAT CAMPAIGN: NEW LOCKBIT 5.0 TARGETS WINDOWS, LINUX, ESXI

- Windows variant: uses heavy obfuscation and pecking by loading its payload through DLL reflection while implementing anti-analysis techniques.
- Linux variant: offers similar functionality with command-line options for targeting specific directories and file types.
- ESXi variant: specifically targets VMware virtualization infrastructure and is designed to encrypt virtual machines.
- The new variants use randomized 16-character file extensions, have Russian language system avoidance, and event log clearing post-encryption.
- The existence of Windows, Linux, and ESXi variants confirms LockBit's continued cross-platform strategy, enabling simultaneous attacks across entire enterprise networks, including virtualized environments.
- Heavy obfuscation and technical improvements across all variants make LockBit 5.0 significantly more dangerous than its predecessors.

***** You must pay us.

For Browser link where the stolen information will be published:
[http://lockbitp\[redacted\].onion](http://lockbitp[redacted].onion)

***** What is the guarantee that we won't scam you?
We are the oldest extortion gang on the planet and nothing is more important to us than our reputation. We are not a politically motivated group and want nothing but financial rewards for our work. If we defraud even one client, other clients will not pay us. In 5 years, not a single client has been left dissatisfied after making a deal with us. If we reached an agreement, we will fulfill all the terms we agreed on during the negotiation process. Treat this situation simply as a paid training session for your system administrators, because it was the misconfiguration of your corporate network that allowed us to attack you. Our penetrating services should be paid for the same way you pay your system administrators' salaries. You can get more information about us on:
<https://en.wikipedia.org/wiki/LockBit>

***** Warning! Do not delete or modify encrypted files, it will lead to irreversible problems with decryption of files!
Do not go to the police or the FBI for help and do not inform them that we attacked you. They will forbid you from paying the ransom and will not help you in any way, you will be left with encrypted files and your business will die.

Build a Cybersecurity-Relevant Network

Different contacts can help you understand the role, hiring process, and professional standards.

Recruiters

Recruiters assess role fit, communication, motivation, location, availability, and consistency across your application.

User

Technical reviewers assess your reasoning, fundamentals, hands-on evidence, ethics, reporting quality, and ability to learn.

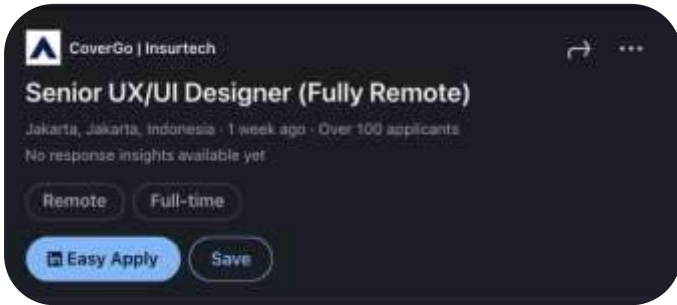

Industry Leader

Community leaders can expose you to current practices, events, mentors, and contribution opportunities. Approach them with specific, respectful questions.

Job Applying

What You Will Do

- Partner directly with clients and delivery teams to translate business requirements into pixel-perfect, branded UIs
- Own end-to-end design for client delivery projects and solution showcases
- Adapt core product features and UI patterns to diverse client use cases
- Collaborate with cross-functional teams to gather requirements and iterate rapidly
- Create wireframes, prototypes, and user flows to communicate design ideas and concepts
- Ensure pixel-perfect visuals, smooth interactions and strict adherence to brand/design-system standards
- Conduct rapid usability checks and deliver value-driving refinements on tight timelines

What We Need

- At least 5+ years of experience working as a UX/UI designer
- A strong portfolio of client-facing apps or websites
- Proven track record of delivering high-quality UI/UX under client or project deadlines
- Expert command of design systems, style guides and brand application
- Exceptional attention to detail in visuals, micro-interactions and handoff specs

Before applying:

- Confirm the role scope and seniority
- Map required skills to truthful evidence
- Check location, shift, language, and clearance requirements

Tailor your headline, summary, and CV keywords

Common Mistakes

1. Profile has **no clear cybersecurity target role**.
2. Claims tools or expertise **without evidence**.
3. **Publishes confidential, unsafe, or unauthorized material.**

[Click here to get your LinkedIn Checklist!](#)

“I would use **LinkedIn** to help me **find a job** after my tenure was finished.”

Portfolio 101

Evidence of Cybersecurity Capability

Prologue Question

" if you have compiled the
portfolio in a *well-documented*
shape"

***Write down in chat box**

Prologue Question

"On a scale of 0-, how **confidence** are you with your **Portfolio Document**?"

**Say it loudly, fella*

When words become unclear, I
shall **focus** with *photographs*.

When images become
inadequate, I shall **PORTFOLIO MOONING**

A **cybersecurity portfolio** is a curated set of privacy-safe evidence showing how you investigate, test, configure, assess, document, and communicate security work.

Type

Portfolio (Platform)

Website / GitHub-Based

A searchable home for project summaries, repositories, reports, diagrams, and reflections. Use clear README files and remove secrets or sensitive data.

PDF / Slide-Based

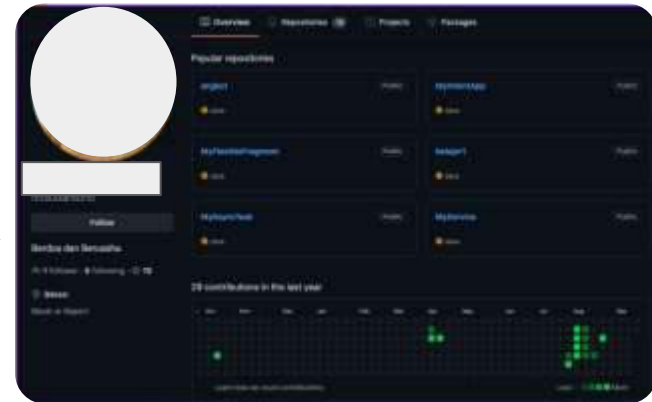

A concise case-study portfolio for recruiters or interviews. Each project should show context, your role, method, evidence, outcome, and lessons learned.

Type Portfolio (Industry)

Cybersecurity technical work often **uses GitHub** for scripts, detection rules, documentation, lab setup, and project READMEs.

Hands-on platforms and write-ups can show lab progress; but only when you explain your reasoning and respect platform rules.

Benefits of having Portfolio

Show Relevant Capability

Provide concrete evidence aligned with SOC, pentest, GRC, IAM, cloud, or another target path.

Build Trust

Clear scope, ethical boundaries, reproducible methods, and honest limitations make your work credible.

Improve Discoverability

A searchable portfolio helps recruiters and practitioners understand your skills beyond a tool list.

The portfolio is constantly being updated as more projects are being done. The decks that are going to be presented, as the time of writing, are mostly created during lectures in RevaU based on fictive businesses and scenarios, but with the real audiences and budgets.

Last Updated: 11/04/2025

Common Elements Portfolio

Education

Please to **show what you've learned** and how it connects to starting your side hustle

What to Include in the "Education" Section:

1. Degree (GPA and Course Log)
2. Certification
3. Non-degree courses

Common Elements Portfolio Skills

1. Group capabilities by security domain; not by a random tool list.

- Security Operations: SIEM, log analysis, detection, triage
- Infrastructure: networking, Linux, Windows, cloud, IAM
- Assessment: vulnerability management, OWASP testing, risk and control assessment

2. Label proficiency honestly and support important skills with project evidence.

Common Elements Portfolio

List of Projects

This section should **list the projects you've worked on** and how they **relate to your gig work**. Please put interesting & impactful project title.

Select 2–4 projects relevant to your target role. For each, show the problem, legal environment, your role, method, evidence, outcome or scope, limitations, and lessons learned.

and many more!

Common Elements of Portfolio Details of Project

This section provide detailed information about the projects you've worked on, including **the problem, goal, and results, as well as the process** you used to complete the project.

Please focus on the impact of the project to the business/company.

Common Elements Portfolio

Contact

Contact should **include call-to-action** that **encourage potential clients to contact you**

Include:

1. Professional email
2. LinkedIn
3. GitHub or portfolio URL

*Extra Notes

Security Evidence Must Be Safe to Share

Cybersecurity portfolios require careful disclosure.

1. Risks include NDAs, personal data, credentials, private IPs, client details, proprietary configurations, and exploit information.

2. Safer alternatives:

- Use legal labs or intentionally vulnerable applications
- Use synthetic or anonymized data
- Redact sensitive details and explain the redaction
