

THE LEADERS' ROOM:

Leading with Clarity
Irvandias Sanjaya, S.Psi., CPC., CMT.

WHY THE SESSION EXIST

Qoala's first leadership survey found that many managers still need clearer goals and a better understanding of what they are expected to achieve.

The main problem is that the company's direction is clear at the top, but it does not always reach teams in a simple and practical way.

SESSION'S DETAIL

NAME

The Leaders' Room: Leading with Clarity

FORMAT

Half-day · 4 hours · In-person

AUDIENCE

25–30 participants · Mixed Cohorts
B/C/D (Team Leaders through VP level)

DATE

Last week of August 2026

VENUE

Private room; restaurant or hotel

LANGUAGE

Bahasa Indonesia primary.

PRIMARY SKILL

CREATE CLARITY FROM AMBIGUITY:

Helping leaders **turn unclear company direction into simple, meaningful, and practical guidance for their teams**; even when the instructions from above are not fully clear.

DIAGNOSE THE CLARITY GAP

Distinguish what is known, ambiguous, and missing; and identify what the team needs to proceed.

TRANSLATE DIRECTION INTO ACTION

Use the CLEAR framework to define context, outcomes, priorities, guardrails, ownership, and review rhythm.

COMMUNICATE AND REFINE CLARITY

Communicate direction purposefully, detect remaining ambiguity, receive feedback, and improve the message.

LEARNING FRAMEWORK

EXPERIENTIAL LEARNING

Experiential learning means **learning by doing**.

Instead of only listening to a presentation, **participants practise a skill through activities, simulations, case discussions, role-plays, or real workplace problems**. After the activity, they **reflect on what happened**, identify lessons, and apply them to their work.

For example, **leaders do not just learn how to give clear direction**. They **practise turning an unclear business message into a clear team action plan**, receive feedback, and improve their approach.

TRAINING METHODOLOGY

ENGAGING ACTIVITY

Activities that incorporate game elements into the learning experience.

LECTURE BY EXPERT

Presentations by experts/trainers on key topics related to communicating business instructions.

CLARITY EXERCISE

Supporting activities in the form of hands-on exercises to help participants practice communicating business instructions.

PROPOSED EXPERT

Irvandias Sanjaya, S.Psi., CPC., CMT.

ASSESSMENT ADDS-ON

**Assessment is provided
before & after the training**

Assessment	Description
Leadership Clarity Self & Team-Assessment	Participants assess their skills before and after the program. Measurable areas: • understanding ambiguous organizational direction; • distinguishing between facts, assumptions, and uncertainties; • setting team priorities; etc.
Clarity Communication Simulation Assessment	Participants were provided with organizational information that was: • incomplete; • had multiple priorities; • included business targets; • did not yet explain the implementation details. Participants were then asked to develop and present guidelines to their teams, for example, within 5–7 minutes.
