Daffa Ghiffary Kusuma

Learning Designer & Program Manager | AI Solutions for Indonesian MSMEs
Kebayoran, Jakarta, Indonesia

Summary

Learning Specialist & Program Manager who runs the full learning cycle—TNA → curriculum → decks & worksheets → ops → M&E → client reporting—so programs launch smoothly and prove impact. I excel at creating and implementing learning solutions that meet organizational goals through practice-first design and evidence-based outcomes. My portfolio spans MSME acceleration, entrepreneurship, high-stakes communication (maritime, facilitation, public speaking), and trainer enablement. I'm skilled in developing competency-based curriculum, facilitator-ready materials, and data-driven evaluation frameworks that ensure behavior change on the job. Known for translating program impact into actionable client reports and continuously improving delivery based on evidence and feedback.

Experience

Kerja Cer-Dias

Learning Designer

April 2025 - Present (1 year 2 months)

- Conducted communication training needs analysis across administrative, cross-department, and manager-to-staff contexts; translated gaps into competency-based learning priorities.
- Designed end-to-end communication training programs, including proposals, 36-hour lesson plans, syllabi, facilitator decks, OJT practice, assessments, feedback forms, and rubrics.
- Built learning evaluation tools, including training budget and ROTI calculator, Kirkpatrick Level 1 reaction dashboard, and Level 2 learning dashboard.
- Developed competency frameworks, training syllabi, and L&D business/marketing plans to align learning programs with workforce needs and service strategy.
- Created recruitment assessment tools covering DISC, accuracy, math, cognitive tasks, scoring norms, and structured hiring decision support.

- Designed mentoring workbooks and pitch deck templates to guide mentees from idea exploration to concept development, evidence building, and final pitching.
- Created career and employability learning materials covering overseas study, scholarships, LinkedIn optimization, personal branding, job readiness, public speaking, and portfolio development.
- Developed workplace communication materials covering adaptive communication, DISC, active listening, stakeholder influence, teamwork, psychological safety, service excellence, and conflict handling.
- Created mental health and productivity materials covering stress management, time management, burnout prevention, pressure management, supervisor support, and emergency preparedness.
- Designed maritime learning materials covering SMCP, closed-loop communication, SBAR, teach-back, crew fatigue, crew stress, human factors, and onboard psychological safety.
- Created learning decks on critical thinking, decision-making, cognitive biases, hybrid public speaking, human relations, side hustling, gig economy resilience, and financial behavior.

Badan Kepegawaian Daerah Provinsi Jawa Barat

Machine Learning Engineer

October 2025 - December 2025 (3 months)

Bandung, West Java, Indonesia

- Architected and deployed a Retrieval-Augmented Generation (RAG) autograding system for civil service (ASN) competency assessments, processing 100,000+ assessment records across 3 evaluation methodologies (Case Analysis, Behavioral Event Interview, QKom Forms)
- Engineered a comprehensive competency knowledge base ("Kamus Kompetensi") stored in Vector Database, covering 9 core competencies (Integrity, Teamwork, Communication, Change Management, Results Orientation, National Unity, Development, Decision Making, Public Service) with 27 behavioral indicators across 3 proficiency levels
- Curated and structured 56,871 behavioral indicator sentences across three assessment systems, ensuring semantic accuracy for RAG retrieval optimization
- Designed and validated test query datasets (3,921 total test sentences) to benchmark system performance against human expert evaluations
- Achieved 84-92.5% accuracy rates across assessment types: 84% (Case Analysis - 28,334 curated sentences), 92.5% (BEI - 15,863 sentences), and 90.1% (QKom - 12,674 sentences)

- Performed end-to-end data extraction, preprocessing, vector embedding generation, and retrieval pipeline optimization for production deployment

Rumah Siap Kerja

2 years 9 months

Program Manager

March 2023 - April 2025 (2 years 2 months)

Jakarta Selatan, Jakarta, Indonesia
