Daffa Ghiffary Kusuma

Learning Designer & L&D Program Manager | TNA, Curriculum Design, Kirkpatrick Evaluation, Learning Analytics | Building programs that prove impact
Greater Bandung

Summary

I design learning programs that connect business needs, learner behavior, and measurable outcomes. My work covers the full learning cycle: training needs analysis, competency mapping, curriculum design, facilitator-ready materials, program operations, assessment, Kirkpatrick evaluation, dashboards, and client reporting. I have built learning solutions for entrepreneurship, MSME acceleration, employability, communication, maritime safety, mentoring, and organizational capability development. Previously, I managed and evaluated large-scale learning programs at Rumah Siap Kerja, including entrepreneurship and MSME programs with 5,000+ student datasets, 24 partners, 20 delivered sessions, dashboard-based reporting, and measurable improvements in entrepreneurship efficacy and purchase performance. I also bring a psychology and psychometrics background, with experience in competency assessment, behavioral interviews, role-play simulations, cognitive test development, and data-driven program improvement.

Experience

Eighteen Rekrutmen Asia
Learning And Development Specialist
January 2026 - Present (6 months)
Jakarta, Indonesia

1. Built L&D strategy and learning architecture for Eighteen Rekrutment Asia, connecting macro training needs analysis for DKI Jakarta, competency mapping, competency-based syllabus design, business planning, and marketing strategy for training solutions.
2. Developed a competency-based training organization framework covering capability priorities, role/program alignment, curriculum structure, evidence of learning, and stakeholder-ready training proposals.

3. Created learning analytics and evaluation tools, including a training budget and Return on Training Investment calculator, Kirkpatrick Level 1 reaction dashboard, and Kirkpatrick Level 2 learning dashboard to support data-driven program decisions.

4. Designed assessment systems for recruitment and project management capability, including assessment blueprints, DISC/accuracy/math/cognitive task banks, scoring norms, a 5-level competency dictionary, role-level mapping, multi-source evidence, calibration panels, and gap-based action planning.

5. Positioned training services around employability, communication, and organizational capability, combining program portfolio design, go-to-market planning, budget logic, learning measurement, and continuous improvement.

Kerja Cer-Dias

Learning Designer

April 2025 - Present (1 year 3 months)

Jakarta, Indonesia

1. Designed end-to-end learning solutions across training needs analysis, competency-based proposals, 36-hour lesson plans, facilitator decks, post-tests, Level 1 reaction forms, observation rubrics, and behavior-transfer tools for workplace communication programs.

2. Built a broad L&D portfolio of facilitator-ready workshops for communication, employability, MSME growth, startup development, public speaking, personal branding, LinkedIn optimization, stress/time management, growth mindset, service excellence, and financial-behavior learning.

3. Developed mentoring and coaching assets including MILES Unfair Advantage workbook, 4-week idea-to-pitch mentoring workbooks, and pitch deck templates, turning reflection, SDG problem framing, concept testing, evidence tracking, and presentation readiness into structured learner journeys.

4. Created applied, scenario-based learning materials for maritime and high-pressure work contexts, including SMCP, closed-loop communication, SBAR, PACE, graded assertiveness, crew fatigue, crew stress, healthy communication under pressure, psychological safety, and active-listening practice.

5. Translated learner and business needs into practical training materials with adult learning principles, role plays, case studies, worksheets, discussion prompts, assessment alignment, and job-ready templates for professional learners, new graduates, supervisors, MSMEs, and early-career talent.
6. Used AI-assisted learning design where supported by the artifact scope, including AI-powered LinkedIn personal branding, AI trends in service excellence, and AI sentiment/CX concepts in adaptive communication learning materials.

Peopleshift | Training and Development Solutions

Assessor

June 2026 - June 2026 (1 month)

Jakarta, Indonesia

Supported Monitoring & Evaluation work for the BSI Scholarship Inspirasi Ekstensi Top Talent Track by auditing and improving Excel-based scoring files for awardee CV and portfolio review.

Reviewed Portfolio & Background Score evidence across Kelompok 13-25, aligning CV/portfolio findings with scoring indicators for organization experience, internship/work experience, and competition achievement. Strengthened scoring consistency by separating verified evidence, conservative reviewer judgment, and unresolved ambiguity.

Built a cleaner audit trail in the scoring workbooks by improving Source/Catatan notes, removing internal reviewer references from client-facing files, and keeping workbook language in Bahasa Indonesia. Helped normalize revised client inputs into the final Score package while preserving backups and traceability.

Contributed to a more decision-ready talent mapping workflow by checking formulas, workbook structure, score consistency, and evidence quality across group scoring files. Flagged rubric ambiguities, especially internship duration versus job-quality scoring, to reduce unsupported assumptions and make review decisions easier to defend.

Key contribution: turned scattered CVs, portfolios, meeting notes, rubric files, and scoring workbooks into a more consistent, auditable, and client-ready assessment package for scholarship awardee readiness review.

Badan Kepegawaian Daerah Provinsi Jawa Barat

Machine Learning Engineer

October 2025 - December 2025 (3 months)

Bandung

1. Architected and deployed a Retrieval-Augmented Generation (RAG) autograding system for civil service (ASN) competency assessments, processing 100,000+ assessment records across 3 evaluation methodologies (Case Analysis, Behavioral Event Interview, QKom Forms)
2. Engineered a comprehensive competency knowledge base ("Kamus Kompetensi") stored in Vector Database, covering 9 core competencies (Integrity, Teamwork, Communication, Change Management, Results Orientation, National Unity, Development, Decision Making, Public Service) with 27 behavioral indicators across 3 proficiency levels
3. Curated and structured 56,871 behavioral indicator sentences across three assessment systems, ensuring semantic accuracy for RAG retrieval optimization
4. Designed and validated test query datasets (3,921 total test sentences) to benchmark system performance against human expert evaluations
5. Achieved 84-92.5% accuracy rates across assessment types: 84% (Case Analysis - 28,334 curated sentences), 92.5% (BEI - 15,863 sentences), and 90.1% (QKom - 12,674 sentences)
6. Performed end-to-end data extraction, preprocessing, vector embedding generation, and retrieval pipeline optimization for production deployment

Rumah Siap Kerja

2 years 9 months

Program Manager

March 2023 - April 2025 (2 years 2 months)

Jakarta Selatan, Jakarta, Indonesia

- o Developed offline and online entrepreneurship program about entrepreneurial mindset by using experiential learning framework for 54 students with 4.6 satisfaction index
- o Developed 2 YouTube live stream program about 'selling without experience' with 100 viewers

- o Developed mentoring program for Sandination community's 10 students to become entrepreneur with students' average sales of 28 water bottle sold per week
- o Developed 2 offline 'Entrepreneurship Bootcamp' for NHI Poltekpar Bandung's 57 students with 100% NPS Score
- o Developed mentorship program for Jember's UMKM acceleration for 2 Prakerja alumnus & 3 UMKM whom are nominated as the 3rd general champion and 2nd audience-favorite pitch deck in the KUMPUL JASA competition.
- o Developed financial training program for business incubation for UMKM with 100% NPS Score and 50% learning gain

Monitoring And Evaluation Specialist

August 2022 - March 2023 (8 months)

Jakarta, Indonesia

- o Improved students' entrepreneurship efficacy by 53% and purchase performance by 56% by analyzing 5k+ student datasets, resulting in better program outcomes.
- o Built five dashboards with Excel and Tableau to report program metrics, resulting in clear communication to stakeholders.
- o Designed M&E frameworks for data collection from 5000 students and 24 partners, resulting in thorough program analysis.
- o Delivered 20 entrepreneurship sessions with an 8.89/10 satisfaction score, resulting in positive student feedback and engagement.
- o Facilitated competency-based assessment activities for 300+ candidates using behavioral interviews, role-play simulations, and group case studies to identify talent gaps and inform program placement, supporting objective talent selection and Individual Development Planning.

Faxtor Indonesia

1 year 2 months

Research and Development

February 2021 - February 2022 (1 year 1 month)

Bandung, West Java, Indonesia

- o Developed 3 sets of Faxtor Cognitive Ability Test with good reliability and validity
- o Produced 5 deep psychometry learning videos based on 217 pages expert's book in 2 weeks
- o Published 1000+ pages Faxtor career book that required 1.5 hour/page research time in the making

Research And Development
January 2021 - February 2021 (2 months)
Bandung, West Java, Indonesia

Researching Occupation Lists for Fxator Career Book

PT. Hitam Putih Sandiatma
Training Designer & Facilitator
November 2020 - November 2020 (1 month)

- o Designed career training program for 200+ audiences based on 6 competencies
- o Facilitated 8 members 3 learning games with 4.8/5 rating feedback from the members

Satu Persen - Indonesian Life School
Curriculum Developer
July 2020 - August 2020 (2 months)
Jakarta, Indonesia

- o Received an average rating of 4.5 out of 5 from 80% of attendees.
- o Achieved a completion rate of 95% for the learning modules and worksheets.
- o Increased the conversion rate of webinar leads by 25% by applying the insights and recommendations.
- o Generated 50% more sign-ups and referrals for future webinars.
